Superintendent's Highlights

We are pleased with the continued growth in our technology programs for both staff and students. Improved connectivity and access to machines provided increased utilization to the internet, correspondence courses, and levels testing opportunities beyond normal classroom applications.

Staff development and efforts to align local curriculum with state and national standards continue. A focus on the development of assessments will enhance our vision of areas needing emphasis in our educational programming.

Student enrollment continues to decline but the district has been able to maintain a fiscal stability through the passage of an override levy for the 2002/03 school year.

Progress Towards Meeting District Goals

2001-02 Goals

Progress

Align curriculum with state standards

Local staff have reviewed curriculum and aligned to state standards. Scope and sequence is being addressed to fill gaps for standards.

Current and relevant curriculum for all students.

Language Arts and reading curriculum was reviewed with a district wide adoption approved by the board of trustees. Scope and sequence is aligned with state standards.

Improved communication for staff and community.

Implementation of the strategic plan has included updates of home pages for local community schools. Calendars of events are being placed on web pages to enhance communication with parents and community. Key communicators email list provides quick and accurate communication with patrons and staff in lieu of district wide newsletters.

Stability in funding of educational programs

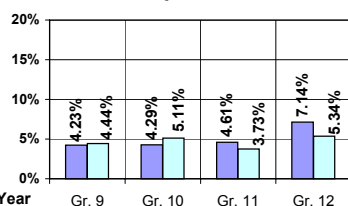

Long term planning and adjusted expenditure patterns are improving the funding stability for the district. A dependence upon local additional funding beyond state support continues to be necessary to provide programs needed for students.
